

CHIPS Dataset Access Application and Data Use Agreement

Project Basic Information

Item	Information
Project Name	Robust In-Bed Human Pose and Shape Estimation from Pressure Images with Clinical Awareness (CHIPS)
Dataset Name	CHIPS: Clinical Human In-bed Pose and Shape Dataset
Project Repository	https://github.com/cf-x/chips
Dataset Summary	Large-scale pressure-based in-bed human pose and shape dataset collected in ICU-simulated settings. The paper reports 207,508 synchronized frames from 16 subjects under 50 clinically relevant scenarios.
Data Type and Standard Release Scope	De-identified in-bed pressure images for human pose and shape estimation, together with derived annotations such as 3D joint pose and SMPL pose/shape parameters where applicable. Raw multi-view RGB recordings are not included in the standard release or requestable subset unless separately approved in writing. RW-MPJPE evaluation metadata may be provided to approved users as part of the controlled-access dataset package where applicable.
Ethical Approval	Medical Research Ethics Committee of The First Affiliated Hospital of the University of Science and Technology of China (USTC), in line with the principles of the Declaration of Helsinki.
License	Repository code: MIT License. Dataset: non-commercial academic research use only, subject to approval and this Agreement.
Data Provider Contact	Chenfang Fang < fang_chenfang@mail.ustc.edu.cn >
Institution	University of Science and Technology of China (USTC)

Important Instructions

1. This form must be completed in full and in English. Incomplete applications may not be processed.
2. The form must be signed by both the Principal Investigator (PI) and an Authorized Institutional Signing Official who has authority to bind the recipient institution.
3. Submit the completed and signed form as a single PDF to: fang_chenfang@mail.ustc.edu.cn.
4. Use the email subject: CHIPS Dataset Application - [PI Full Name] - [Institution].
5. Access is granted only for approved, non-commercial academic research purposes.
6. The release scope of the dataset will be determined according to ethical approval, privacy protection requirements, and institutional data governance policies. Before paper publication, approved de-identified subsets may be provided upon request. Public release, if applicable, will follow the policy stated in the project repository.

7. Failure to comply with this Agreement may result in termination of access, legal action, and prohibition from future access to CHIPS data.

Part 1. Applicant and Institution Information

1.1 Principal Investigator (PI) Information

Field	Response
Full Name (Legal Name)	
Academic / Professional Title	
Institutional Email Address (Required)	
Phone Number	
Affiliated Institution / Organization	
Department and Laboratory	
Institutional Address	
ORCID iD (Optional)	
Academic or GitHub Homepage (Optional)	

1.2 Authorized Institutional Signing Official

This must be an individual with legal authority to bind the recipient institution to this Agreement, such as an officer from the Sponsored Projects Office, Technology Transfer Office, Research Administration Office, or equivalent institutional unit.

Field	Response
Full Name and Title	
Office / Department	
Institutional Email Address	
Phone Number	

1.3 Data Recipients: All Individuals with Access

List all individuals who will access, use, download, store, process, or analyze the dataset, including the PI, co-investigators, postdoctoral researchers, students, research assistants, and IT or system administrators. Attach additional pages if necessary. The recipient team must keep this list complete and up to date.

No	Full Name	Title / Role	Institution	Email Address
1				
2				
3				
4				
5				

If the applicant is a student, provide the supervisor's information below.

Field	Response
Supervisor's Full Name	
Supervisor's Institutional Email	

Part 2. Dataset Request Details

Field	Response
2.1 Dataset Name	CHIPS: Clinical Human In-bed Pose and Shape Dataset for Robust In-Bed Human Pose and Shape Estimation from Pressure Images with Clinical Awareness
2.2 Data Modality Requested Check all applicable items.	☐ De-identified pressure images ☐ 3D joint pose annotations ☐ SMPL pose and shape parameters ☐ Evaluation metadata / RW-MPJPE weights ☐ Other: _____
2.3 Dataset Version Requested If known; otherwise write "latest approved version".	
2.4 Intended Number of Subjects If a specific subset size is needed.	
2.5 Anticipated Duration of Data Use	From: _____ (DD/MM/YYYY) To: _____ (DD/MM/YYYY) Access is granted for up to 3 years. Renewal requires a new application.
2.6 Specific Dataset Subset Requested If applicable. Specify scenarios, subjects, modalities, or annotation types.	

Field	Response
2.7 Requested Access Method	☐ Secure download link ☐ Private repository ☐ Institutional transfer ☐ Other: _____
2.8 Data Storage Location Specify where the dataset will be stored, such as institutional server, secured workstation, approved cloud bucket, or HPC cluster.	
2.9 Will you process this data using third-party cloud services?	☐ Yes ☐ No
2.9.1 If Yes	Specify cloud provider(s) and confirm that the data will remain encrypted at rest and in transit:
2.10 Will any cross-border data transfer occur?	☐ Yes ☐ No
2.10.1 If Yes	Specify countries or regions involved and the legal basis for the transfer:
2.11 Request for Raw Multi-view RGB Recordings Raw RGB recordings are not included in the standard release.	☐ Not requested ☐ Requested with separate justification and additional approval documentation attached

Part 3. Research Project and Use Statement

Field	Response
3.1 Project Title	
3.2 Project Abstract 300–500 words. Include background, objectives, methodology, and how the CHIPS dataset will be used. Attach an additional page if needed.	
3.3 Non-Technical Summary Maximum 150 words. This summary may be made public if approved.	
3.4 Health Relevance and Public Interest Explain how the research is health-related and how it may benefit the public.	

Field	Response
3.5 Project Funding Source If any. Include grant number, funding agency, and whether the project is funded by a for-profit entity.	
3.6 Is this project funded?	☐ Yes ☐ No
3.7 Is any funder, collaborator, or recipient institution a for-profit entity?	☐ Yes ☐ No If yes, provide details and explain why the proposed use remains non-commercial academic research.
3.8 Will the dataset be combined with any other datasets?	☐ Yes ☐ No
3.8.1 If Yes	List the other datasets and their sources, and confirm that you have lawful access to each:
3.9 Expected Research Outputs Papers, theses, models, software, patents, or other outputs.	
3.10 Do you plan to publish results based on this dataset?	☐ Yes ☐ No
3.10.1 If Yes	Provide the preliminary publication plan, including target conferences or journals if known:

Part 4. Ethical and Regulatory Compliance

Field	Response
4.1 How does your institution classify the proposed use of this de-identified human-derived dataset?	☐ Human subjects research; IRB / ethics approval is attached ☐ Exempt or non-human-subject research determination is attached ☐ Review is not required under institutional policy; explanation provided below ☐ Review is pending; access will not begin until approval or exemption is provided
4.2 Ethics Approval, Exemption, or Non-Human-Subject Determination	Provide the ethics approval / IRB number, exemption determination, or explanation, and attach supporting documentation where applicable:
4.3 Does your institution or project have a Data Protection Impact Assessment (DPIA) or similar privacy review?	☐ Yes ☐ No ☐ Not Applicable

Field	Response
4.4 If Yes	Attach a copy of the DPIA or privacy review document: ☐ Attached ☐ Not Applicable
4.5 Technical and Organizational Security Measures Describe how the dataset will be protected from unauthorized access, disclosure, or loss, such as encrypted servers, access control, audit logs, and de-identification safeguards.	
4.6 Authorized Storage and Access Control Identify the storage system, access-control method, and personnel responsible for granting or revoking access.	
4.7 Proof of Human Subjects Research Protection Training For all Data Recipients, if available or required.	☐ Attached ☐ Will submit upon request ☐ Not Applicable

Part 5. Data Use Agreement: Terms and Conditions

By signing this form, the Principal Investigator, on behalf of all Data Recipients listed in Part 1.3, and the Authorized Institutional Signing Official agree to the following legally binding terms.

5.0 License Grant

Subject to the terms of this Agreement, the Data Provider grants the Recipient a limited, personal, non-exclusive, non-transferable, non-sublicensable, and revocable license to access and use only the approved CHIPS Dataset materials solely for the approved non-commercial academic research purposes described in this application. Unless separately approved in writing, the approved CHIPS Dataset materials do not include raw multi-view RGB recordings.

5.1 Prohibited Uses

The Recipient shall not:

1. Attempt to re-identify, de-anonymize, or contact any individual whose data is contained in the CHIPS Dataset.
2. Link the de-identified data to other datasets or information sources for the purpose of re-identification.
3. Distribute, reproduce, sell, lease, sublicense, transfer, publish, upload, or otherwise make available any portion of the CHIPS Dataset to any third party not listed in Part 1.3 without prior written permission from the Data Provider.
4. Use the dataset for any commercial purpose, including developing commercial products, generating revenue, supporting for-profit services, or providing paid data/model services.
5. Use the dataset for clinical diagnosis, clinical decision-making, patient monitoring, patient care, or any regulated medical use.
6. Remove, alter, or obscure any copyright notice, attribution, license statement, or proprietary marking associated with the dataset.
7. Use the dataset to train generative AI systems, large language models, foundation models, or other machine learning systems for commercial deployment without a separate written agreement.
8. Violate any applicable law, regulation, institutional policy, research ethics requirement, or data protection obligation.

5.2 Recipient Obligations

The Recipient agrees to:

1. Use the dataset only for the non-commercial academic research purposes described in this application.
2. Ensure that all Data Recipients listed in Part 1.3 are informed of and bound by this Agreement.
3. Store the dataset only on secure institutional systems with appropriate encryption, password protection, access control, and administrative safeguards.
4. Not store the dataset on personal devices, publicly accessible servers, unapproved cloud services, or unsecured removable media.
5. Immediately revoke access for any Data Recipient who leaves the research team or is no longer authorized to access the dataset.

6. Maintain an accurate and current record of all Data Recipients with access and provide it to the Data Provider upon request.
7. Notify the Data Provider in writing within 5 business days of any unauthorized access, disclosure, loss, misuse, or suspected data breach.
8. Promptly report to the Data Provider any information in the CHIPS Dataset that may inadvertently permit identification of any individual or institution.
9. Permanently delete or destroy all copies of the dataset upon completion of the approved research, expiration of access, or termination of this Agreement, and certify destruction in writing to the Data Provider within 30 days.
10. Acknowledge the CHIPS dataset in all publications, presentations, theses, preprints, or public reports using the following statement:

This research used the CHIPS dataset (Clinical Human In-bed Pose and Shape Dataset), provided by Chenfang Fang, University of Science and Technology of China (USTC).

11. Cite the CHIPS paper once published, as indicated in the repository. If RW-MPJPE evaluation metadata or protocol is used, acknowledge it as specified by the Data Provider.
12. Provide the Data Provider with bibliographic information for all publications arising from use of the dataset within 30 days of public availability.
13. Make reasonable efforts to release code used to produce research results, such as on GitHub, when results are disseminated, unless such release is restricted by intellectual property, privacy, security, or institutional policy. In such cases, provide sufficient methodological details to support reproducibility.
14. Provide a brief progress report upon reasonable request by the Data Provider.

5.3 Intellectual Property

The Data Provider retains all rights, title, and interest in the CHIPS Dataset. The Recipient retains rights to research results, algorithms, software, models, and other derivative works created through use of the dataset, provided that such outputs do not contain, reproduce, or enable reconstruction of any portion of the original dataset. Any sharing of derivative data products, such as additional annotations, shall be subject to mutually agreed terms.

5.4 Disclaimer and Liability

The CHIPS Dataset is provided “as is” without warranties of any kind, whether express or implied. The Data Provider and USTC shall not be liable for any claim, damage, loss, or liability arising from or related to the use of the dataset.

5.5 Term and Termination

This Agreement becomes effective upon approval by the Data Provider and expires on the date specified in Part 2.5, unless terminated earlier. The Data Provider may terminate access immediately if the Recipient breaches any term of this Agreement. The Recipient may terminate this Agreement by providing written notice and certifying destruction of all dataset copies. Obligations related to prohibited uses, confidentiality, data security, publication, intellectual property, liability, and governing law shall survive termination.

5.6 Institutional Responsibility

The Recipient Institution agrees to ensure compliance with this Agreement, verify that the proposed research has received appropriate ethics approval, exemption, or non-human-subject determination where required, and take appropriate institutional action in response to any violation by its personnel.

5.7 Electronic Signatures and Counterparts

This Agreement may be executed electronically and in counterparts, each of which shall be deemed an original, unless prohibited by the Recipient Institution's policy or applicable law.

5.8 Governing Law and Dispute Resolution

This Agreement shall be governed by and construed in accordance with the laws of the People's Republic of China. Any dispute arising from or relating to this Agreement that cannot be resolved amicably shall be submitted to the competent courts in Hefei, Anhui Province, People's Republic of China.

Part 6. Declaration and Signatures

6.1 Principal Investigator Declaration

I, the undersigned, confirm that all information provided in this application is true, accurate, and complete. I have read and understood all terms and conditions of this Agreement and agree to be bound by them on behalf of myself and all Data Recipients listed in Part 1.3.

Field	Response
PI's Full Name (Printed)	
Signature	
Title	
Date (DD/MM/YYYY)	

6.2 Authorized Institutional Signing Official Declaration

I, the undersigned, certify that I have authority to bind the Recipient Institution to this Agreement. I confirm that the institution has reviewed this application and agrees to be bound by all terms and conditions.

Field	Response
Official's Full Name (Printed)	
Signature	
Title	
Institution	
Date (DD/MM/YYYY)	

6.3 Institutional Seal

Optional but recommended.

Institutional Seal Here

Part 7. Submission Checklist

Before submitting, confirm that the following materials are included:

- ☐ Completed Part 1: Applicant and Institution Information
- ☐ Completed Part 2: Dataset Request Details, including storage, cloud service, and cross-border transfer declarations if applicable
- ☐ Completed Part 3: Research Project and Use Statement
- ☐ Completed Part 4: Ethical and Regulatory Compliance, including approval, exemption, non-human-subject determination, or explanation if no review is required
- ☐ Signed Part 6: PI and Authorized Institutional Signing Official signatures
- ☐ Ethics approval / IRB approval / exemption / non-human-subject determination letter, if required in Part 4
- ☐ Proof of human subjects research protection training, if available or required
- ☐ Separate justification and approval materials for raw multi-view RGB recordings, if requested
- ☐ PI's CV or biosketch, optional but recommended

Submit as a single PDF to: fang_chenfang@mail.ustc.edu.cn

Email subject: CHIPS Dataset Application - [PI Full Name] - [Institution]

Part 8. Approval: For Data Provider Use Only
